

TENFLOW

The 10-Stations Free Standing Hand Wash Sink

TenFlow is the new entry free standing hand wash stations. Its stainless-steel structure with 10 taps is the perfect solution, ready for use in a variety of environments and occasions: from a small private event to a large festival, from a construction site of any size to an outdoor sports area, or in campsites, beaches, parks and, in general, wherever hand washing and sanitation are needed.

TenFlow is very easy to assemble, only six screws are needed, and can be easily connected to the water and sewer system. It can be used stand-alone or in series. Thanks to its specific feet, it can be installed on various types of terrain and various slopes.

Features include:

- N. 10 timed taps adjustable from 1 to 3 seconds
- N. 2 water-supply connections, located on the sides, and N. 1 drain placed in the basin
- 3/4 female fresh water line connections (inlet/outlet)
- N. 4 levelling feet to adjust the slope and ensure settlement on various soil types
